adjustable writing slope

ReadWrite

Research
An inclined work surface decreases the neck flexion, bending of the neck (Dul, 1992) and thereby contributes to the prevention of complaints. A research by Colombini (1986) proves that working with a flexed neck is needed in order to be able to read a document lying on a flat working surface. This increases the pressure on the intervertebral discs of the neck and thereby can lead to neck complaints.

Ergonomic: Prevents eye, neck and back injuries while reducing the physical strain

Quality: Comfortable and efficient

Smart: Clip and rubber bar prevents slipping of documents

Continuously height adjustable: 0°-60°

Specifications

Dimensions:	422 x 33 x 246 mm
Weight:	1900 g
Product code:	BNERW

1 
1. Completely foldable

2. writing/reading position

2

Health & Safety Regulations
Council Directive 90/270/E The minimum safety and health requirements for work with display screen equipment. The document holder shall be stable and adjustable and shall be positioned so as to minimize the need for uncomfortable head and eye movements.
